

Vincenta Licensing Policy

Last updated: August 2026

Overview

Vincenta software is licensed by Vincenta Ltd (Company No. 17407840, registered office at Suite A, 82 James Carter Road, Mildenhall, IP28 7DE) on a perpetual, per-calculator basis.

Each licence is permanently linked to the unique Product ID of one compatible TI-Nspire™ CX calculator. Once activated, Vincenta operates entirely offline and does not require an Internet connection for normal use.

There are no subscriptions and no recurring annual fees.

Personal Licence

A Personal Licence permits the installation and use of Vincenta on one compatible TI-Nspire™ CX calculator.

Your purchase includes:

- Vincenta software package
- Personal activation key
- Installation instructions
- Free maintenance updates within the purchased major version
- Licensing support

Activation

Before purchasing, you will be asked to provide your calculator's Product ID.

Following payment, Vincenta generates a personalised activation key specifically for that calculator. The activation key is unique to the Product ID supplied during purchase and cannot be used on another calculator.

Activation is normally required only once.

Additional Calculator Licences

If you own more than one compatible TI-Nspire™ CX calculator, an additional licence may be purchased for each additional calculator at the current reduced price.

Because every calculator has its own unique Product ID, each calculator requires its own activation key.

Educational and Institutional Licences

Educational establishments, sailing schools, yacht clubs, commercial training providers and other organisations requiring Vincenta for multiple calculators may obtain educational or institutional licences.

These licences are offered under individually agreed terms to reflect the number of calculators, the intended educational or organisational use, and the level of licensing support required.

Institutional licences may include volume licensing, instructor packs, classroom deployments and other arrangements not available under the standard Personal Licence.

Please contact Vincenta to discuss your requirements before purchase.

Software Updates

Maintenance releases, including bug fixes, performance improvements and compatibility updates, are provided free of charge within the purchased major version of Vincenta.

Future major versions introducing significant new functionality may be offered as optional paid upgrades at a reduced upgrade price.

Purchasing an upgrade is entirely optional. Your existing licensed version will continue to operate on the calculator for which it was licensed.

Replacement Calculator Licence Policy

Vincenta licences are intended for permanent use on the calculator for which they were originally purchased.

If your calculator suffers a genuine hardware failure, Vincenta will normally issue a replacement activation key after reviewing reasonable evidence that the original calculator is no longer usable.

Examples of suitable evidence include photographs showing physical damage, manufacturer service documentation, warranty information, or other reasonable proof of permanent hardware failure.

Routine replacement of a working calculator, voluntary hardware upgrades, resale of a calculator, or transferring Vincenta to another calculator are not covered by this policy. In these situations, an Additional Calculator Licence is required.

Replacement licences are granted at Vincenta's discretion.

Fair Use

Each activation key is issued solely for the calculator whose Product ID was supplied during purchase.

Activation keys must not be shared, published, redistributed, sold or used to activate any other calculator.

A Vincenta licence grants permission to use the software under the Terms of Use. It does not transfer ownership of the software or any associated intellectual property.

Licensing Support

If you require assistance with activation, replacement calculators, educational or institutional licences, or other licensing enquiries, Vincenta will make reasonable efforts to assist.

Most licensing enquiries can be resolved quickly by email using the contact details published on the Vincenta website.

Changes to this Policy

Vinenta may update this Licensing Policy from time to time.

The latest version will always be published on the Vincenta website and will apply to future purchases. Existing licences remain subject to the licensing terms in force at the time of purchase except where changes are required by applicable law.
